Professional Summary

Passionate biologist with interests spanning conservation biology, physiological ecology, and data-driven analysis with field experience ranging from Boreal wetlands, Northern tundra, Southern swamps, Pacific shores and montane forests. Currently a masters student at the University of Florida in the Gillooly lab.

Work Experience

Teaching Assistant | University of Florida | 2024-2026

Teaching lab courses in the department of biology. Courses taught include Biology I & II, Invertebrate Diversity, Undergraduate Research Experience, and Critical Analysis of Research

Environmental Impacts Intern | InnoTech Alberta | 2023-2024

Technician-style work on various primary research projects spanning restoration ecology, genetics, remote sensing, and environmental chemistry.

Youth Programming Intern | B.C. Wildlife Federation | 2022

Development, and delivery of youth and social programs centred around ecology and wildlife.

First Aid Instructor | St. Mark James First aid | 2021

Teaching various levels of hands-on first aid and CPR courses to a variety of audiences.

Ski Patrol | Sunridge Ski Area | 2019-2021

First aid, emergency response, customer relations and general hill safety.

Lifeguard | YMCA, Scouts Canada & B.C. Wildlife federation. | 2018-2022

Prevention, response, and follow-up of incidents, as well as testing, clean up and maintenance of the pool or waterfront.

Education

Master of Science – Expected 2026

Zoology major

University of Florida

Bachelor of Environmental and Conservation Science with Distinction – 2024

Conservation Biology major

University of Alberta

Certificate of Sustainability - 2024

University of Alberta

Fall Program in Marine Science - 2022

Bamfield Marine Science Center
